NEW IC FORECAST: Outdoor Sun Protection in Europe 2024

As construction activity slowed down dramatically across Europe, the outdoor sun protection market started suffered a setback in 2023 and is headed towards a difficult 2024.

Join us on the 18th of January 2024 for the presentation of the new IC forecasts on the European market for roller shutters, outdoor venetian blinds, ZIP-Screens, textile outdoor living solutions and bioclimatic pergolas!

Our senior analyst, Dr. Stefano Armandi, will give a broad overview of the market development in 2023 and will also present our preliminary forecasts for the period 2024-2026.

When: 18th of January 2024, 10:00 am

Where: online

Participation is free of charge. Due to limited webinar seats, [please register online](#).

- Technical note: You need a computer (with speakers or headphones) or smart phone with internet connection to participate.
- During the seminar you can ask questions via chat (visible for all participants), which will be discussed after the seminar.
- You will receive all further details, such as access data, from us by e-mail at least twenty minutes before the start of the seminar.
